TIPS FOR PHOTOGRAPHING KIDS ON THE SPECTRUM

- Does the child take interest in other children?
- Does the child pretend play, like talk on the phone or take care of a dolly?
- Does the child point?
- Does the child look you in the eye for more than a second or two?
- Does the child seem oversensitive to noise? Quick movement?
- Does the child smile in response to the word SMILE or a smile on your face?
- Does the child respond when his / her name is called?
- Does the child understand direction and what is said to him
